

Kadme Photography

Alpha Frames:

Most of our frames are built-to-order from various retail shops around town. The choice of the frame is decided on by the designer. We ask that you decide the color of the frame. Generally, we use white, brown and black frames. But if you are looking for a specific color we will do our best to please.

Letters:

When selecting the letters for the frame you have three options.

Personalized Letters: Personalized letters is where you tell us a few things about your life that has meaning to you. In doing so, we will choose letters that are more personable. (i.e. favorite restaurant, birthplace, etc.)

Vault Letters: We have several pictures in our vault. We allow our customers to search the vault and select the letters they desire.

Choice Letters: Our designer will randomly select letters from a vault to design the frame.
